VIPIN RAJ K

software developer

PERSONAL PROFILE

I am a passionate and results-driven Full-Stack Developer with hands-on experience in building scalable web applications using Python (Django/DRF) and modern JavaScript frameworks like React and Next.js. I specialize in RESTful API development, frontend architecture, and responsive UI design with Bootstrap and Tailwind CSS. With a strong foundation in TypeScript and MySQL, I bring a problem-solving mindset, clean coding practices, and a commitment to delivering efficient, user-focused solutions.

WORK EXPERIENCE

FULL STACK DEVELOPER (PYTHON-REACT) AUGUST 2024 - PRESENT

exmedia

- Developed and deployed e-commerce platforms using Django REST API and React for seamless product browsing, cart, and checkout functionality.
- Built multiple static and dynamic websites for small businesses using HTML, CSS, Bootstrap, and Tailwind with responsive, SEO-friendly layouts.
- Worked with Git & GitHub for version control and collaborated on features and bug fixes.
- Optimized UI/UX using Tailwind CSS, Next.js, and responsive design practices.
- Developed a CRM (Customer Relationship Management) system using Django REST Framework and React.js with role-based user authentication, lead management, and activity tracking.
- Created a student portal with Django backend and Next.js frontend to manage user authentication, course enrollment, and assignment tracking.

INTERNSHIP | 2023 NOV - 2024 JUN

luminar technolab

- Learned and applied core concepts of Python, Django, React.js, and REST APIs through hands-on projects.
- Developed a Student & Teacher Portal as the main capstone project.
- Worked on both frontend (React) and backend (Django REST Framework), and integrated them using REST APIs.
- Gained experience with MySQL for database operations and GitHub for version control.

CERTIFICATE

- NATIONAL COUNCIL FOR TECHNOLOGY AND TRAINING
- For Completing Python - Web Development Course with A+ Grade
